

Task P1: Personal Website

By charlie mason

Report:

This is the personal website I made

This page contains

- navigation bar
- banner photo
 - the banner will resize itself to fit the page and can use any photo because of the max height restrictions it contains
 - the banner will display my name when it is hovered over

- about me
 - there is a short description of myself and a profile picture
- my work
 - this contains a group of projects that are currently all the same
 - these project have a link to my git repo and a YouTube preview player of the project in action
 - there is also a photo gallery containing some pictures from pexels and pixabay
 - these photo enlarge when you hover over them

- contact
 - contain a bottom banner and my email should anyone want to contact me for some work

resizing:

The pages images and text will all resize appropriately to the window shape
